EXPERIENCE SUMMARY

- ❖ Design web applications utilizing HTML, CSS, JavaScript, Python, and Bootstrap 4
- ❖ Utilize .NET Framework to develop MVC applications in C#
- ❖ Leverage SQL along with several RDBMSs to develop and maintain application databases
- ❖ Contribute to existing code base as member of an Agile/Scrum development team

SKILLS SUMMARY

Programming/Development: HTML/CSS, JavaScript, C#, Python

Frameworks/Libraries: .Net Framework, Entity Framework

Database: MySQL, SQLite3, SQL Management Studio 2019

IDEs: Visual Studio 2019/2022, IDLE, Visual Studio Code

Project Management: Agile/Scrum

Version Control: Git Bash

Non-Technical: Critical Thinking, Problem-Solving, Teamwork, Time Management, Communication, Adaptability

EDUCATION & TRAINING

Certification in Software Development | The Tech Academy

September 2023 - May 2024

- ❖ Completed certification May 2024 one month ahead of schedule
- ❖ Immersive Full Stack Software Developer boot camp with more than 600 hours of instruction and hands-on coding
- ❖ Comprehensive program covering C# and Python, along with the fundamentals of Computer Science, Django, .NET Framework, MVC, HTML, CSS, JavaScript, T-SQL/SQL, Agile / SCRUM, and web application development.
- ❖ Practical projects completed:
 - Created car insurance customer facing website using ASP.net framework to allow customers to create their own insurance quotes
 - Created console gaming application with C# using public classes, loops (if/else, while, for, foreach), and methods to play the card game Blackjack
 - Created phonebook with Python to add, edit, delete, and refresh contact information for first names, last names, phone numbers, and emails. Utilized import statements, defined variables, defined functions, and used tuples for data slicing to ensure consistent data formatting
